## AMS

### EconoLine ACOUSTICAL PANELS

**AMS EconoLine Acoustical Panels help solve excessive reverberation (echo) issues** and offer incredible flexibility in architectural and industrial applications along with offering a myriad of installation methods at an affordable price. AMS EconoLine Acoustical Panels can be used for wall or ceiling applications and can be attached directly to drywall, used as acoustical baffles, or suspended as floating clouds.

The material is environmentally friendly and manufactured with 60% post-consumer polyester-fiber and is high impact.

EconoLine Acoustical Panels are developed for interior and some exterior applications.
